Preventive and diagnostic care: Services that help your dentist make sure your teeth and gums are healthy. Routine checkups, cleanings, x-rays, oral evaluations, fluoride applications.

Basic dental care: Fillings, space maintainers and extractions.

Major dental care: Crowns, bridges, root canals and dentures.

Save money with smart network choices

With each plan, you normally save the most by visiting dentists within your plan's network. If you visit a dentist at a Dental Blue location outside of your network, you still benefit from negotiated rates, though your out-of-pocket costs may be slightly higher.

A comparison example may help explain the difference. Suppose you visit your dentist for an exam, cleaning, and x-rays (preventive services). The services cost \$243. Here's how much you would pay out-of-pocket depending on the plan and dentist you've chosen.

DENTAL PLAN			
NETWORK	Blue Basic 100	Blue Essential 100	Blue Essential 200
Dental Blue 100	\$0	\$0	\$0
Dental Blue 200	\$34	\$34	\$0

(Numbers in bold are considered within the plan's network.)

Dental Blue 300 is an additional network of dentists who provide standard discounts to all Dental Blue members. Whichever plan you choose, you'll get a 35% discount at any of these locations.

The above are national projected location numbers.

- ALSO WITH DENTAL BLUE PLANS, YOU GET:**
- Discounts on non-covered services such as teeth whitening.
 - Provider discounts after you meet your annual maximum.
